Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 11 September 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Amendment

1. Applicant's amendments filed on 09/11/2006 is acknowledged. However, in view of the amendments or otherwise, new grounds of rejections have arisen which is the subject of this office action.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 13, 16 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 13, 16 and 18 does not provide any detail on the relationship between various components of the apparatus. It gives a listing of the parts of the apparatus. Appropriate correction is required.

Claim Rejections - 35 USC § 101

4. The 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 2, 4-12 and 19-21 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

6. Claim 19 is rejected because it is claiming a non-tangible result. In claim 19, merely determining the characteristic layer parameter would not appear to be sufficient to constitute a useful, concrete and tangible result, since the outcome of the "determining" step has not been

used in a disclosed practical application nor made available (in the claim) in such a manner that its usefulness in a disclosed practical application can be realized. See OG Notices: 22 November 2005, "Interim Guidelines for Examination of Patent Applications for Patent Subject Matter Eligibility". It appears that the claim is directed to an abstract idea.

7. Claims 2 and 10-12 are rejected for reasons similar to the reasons of rejection of claim 19 above because they are not claiming a useful, concrete and tangible **result** and therefore are directed to non-statutory subject matter. Claims 2 and 10-12 comprise intermediate step(s) in the method of claim 19.

8. Claims 4-9 and 20-21 are rejected for reasons similar to the reasons for rejection of claims 2, 10-12 and 19 above.

The applicant is requested to determine whether the claimed invention complies with the subject matter eligibility requirement of 35 U.S.C. Sec. 101, sentence 3, in the OG Notice from 22 November 2005, which states "In determining whether the claim is for a practical application, the focus is not on whether the steps taken to achieve a particular result are useful, tangible, and concrete, but rather that the **final result** achieved by the claimed invention is "useful, tangible, and concrete." For example, if the final step of a claim includes "an output signal" or "a display of the result(s) of a measurement" to indicate a tangible output, then it would comply with the subject matter eligibility requirement of 35 U.S.C. Sec. 101.

Note: Please note that typically the usage of terms such as "determining, calculating, computing, obtaining, etc." in the final step of the claim will not provide a useful, tangible, and concrete result.

Art Unit: 2877

Allowable Subject Matter

9. Claims 2, 4-13, 16 and 18-21 would be allowable if the 35 USC 101 and 35 USC 112 rejections above can be overcome.

Contact/Status Information

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Roy M. Punnoose** whose telephone number is **571-272-2427**.

The examiner can normally be reached on 9:00 AM - 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Gregory J. Toatley, Jr.** can be reached on **571-272-2800 ext.77**. The fax phone number for the organization where this application or proceeding is assigned is **571-273-8300**.
